HARDY IRISES

(German or Flag Irises)

The Iris is one of the finest of our hardy plants. Will grow in almost any kind of soil, but must have sun. Blooms are marvelous in their delicacy of formation. The exquisite and dainty blending of colors are wonderful in their variety. Beautiful when planted in groups. Especially attractive for borders. Planted late August and early fall, should flower next spring. Here are the finest varieties ever grown. (The upright petals called "Standards" are marked "S." The drooping petals called "Falls" are marked "F.")

CROCUS

That Bloom in the Spring

Winter is scarcely over when the rosy Crocus Imperati peeps from under the blanket of snow. The Crocus is one of the first flowers of spring and one of the best for blooming in the house during the winter. Half a dozen bulbs may be planted in a pot. For garden culture plant bulbs two inches deep and two or three inches apart. They bloom splendidly when planted on the lawn among the grass. They lift their bright heads up through the sod very early and give the lawn a charming aspect. The sorts we offer are especially strong and fine.

ARGUS—The best striped variety.
BARON VON BRUNOW—The best of all blues.
CLOTH OF GOLD—Pure yellow, suffused with brown.
CLOTH OF SILVER—Beautiful white striped lilac.
GIANT YELLOW—Deep golden-yellow; large and fine.

Enjoy These Wonderful WINTER BLOOMING FREESIAS

No description can do adequate justice to this beautiful plant. The flowers are two inches long and about the same in width, and borne in clusters of six to ten. The perfume is most delicious, being a mixture of Mignonette, Violet and Jasmine, and one plant is sufficient to perfume a large room. Water sparingly at first, place in a sunny window and water more as growth progresses. When out of flower, store in some place and repot at proper season in fresh soil for another year's growth.

Wonderful Single Hyacinths

The surpassing single Hyacinths on this page are the very finest that money can buy. The selection has been revised by two of the best bulb growers of Holland. This assures your getting quality stock.

GENERAL DE WET—A most beautiful bright shade of silvery pink.

GERTRUDE—This is the freest-flowering of all the Hyacinths; a lovely deep rosy-pink color.

L'INNOCENCE—A lovely shade of creamy-white. It sometimes comes with very delicate tracings of pink that set off its charms to great advantage. Superb.

MARCONI—Clear dark-pink, large sturdy flower, forces easily; unsurpassed as a pot hyacinth.

MENELICK—Beautiful purplish-black; a grand variety. Early.

YELLOW HAMMER—Pure bright yellow; broad well-shaped flowers. Forces easily. Fine for pot plant.

GRAND MASTER (Grand Maitre)—Deep porcelain-blue; one of the grandest of all blue hyacinths. (See illustration.)

KING OF THE BLUES—This is the richest and most elegant of the dark blue hyacinths; it is so dark that the texture of the flower seems covered with a rich sheen of velvet almost black. Exquisite.

LADY DERBY—The best dark rose-colored hyacinth yet offered. The florets are extra large. Spike solid and compact and of immense size, and the fragrance is delicious. Elegant. (See illustration.)

LA GRANDESE—Snow white. One of the finest white hyacinths ever grown. (See illustration.)

LA VICTOIRE—A bright red hyacinth of the greatest merit.

QUEEN OF THE BLUES—Does not conflict with any of the other blues in this collection, being entirely distinct, a delicate porcelain-blue, a color that is extremely rare in flowers of any kind. Extra fine.

QUEEN OF THE PINKS—Clear pink, sport of King of the Blues, same size and shape of flower. Blooms late. Excellent for pots for Easter and later. (See illustration.)

SIR WILLIAM MANSFIELD—This is the rare color in hyacinths, being a more beautiful shade of lilac or violet.

SINGLE MIXED HYACINTHS

For Bedding in the Fall

These Mixed Hyacinths are used almost exclusively for bedding out in the fall on account of their cheapness. They are just as good colors and just as fragrant as the named varieties; the difference is in the cost of keeping the named sorts separate, both while planting and after they are dug. The exact shades cannot be given but the general outline of colors are kept separate, so that in ordering you know what color you are buying.

BRIGHTEN THE HOME INTERIOR WITH THESE BEAUTIFUL FERNS

There are no plants grown that are more desirable for the house than the following fine decorative Ferns. They are easily grown, thrive well in the ordinary temperature of the living room. We are headquarters for Ferns. No other firm offers so many distinct and choice varieties.

"ROOSEVELT" FERN (Nephrolepis Roosevelt)—Resembles the world-famous Boston Fern, but it produces many more fronds than the Boston, thus making a bushier, handsomer plant; the pinnae are beautifully undulated, giving the "Roosevelt" a pronounced wavy effect; as the plant ages this effect becomes quite distinct.

"TEDDY JUNIOR" FERN (Nephrolepis Teddy Junior)—The Fern for every household. The fronds are broad and beautifully tapered. They droop just enough to make a shapely, graceful plant. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance. "Teddy Junior" will produce about four times more fronds than any other Fern ever introduced, finishing with fifty to sixty fronds in a four-inch pot.

"BOSTON" FERN (Nephrolepis Postonensis)—Fronds which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on table or pedestal.

"PARLOR" FERN (Nephrolepis Whitmanii Compacta)—This is a condensed form of the "Ostrich Plume Fern," with valuable characteristics added which are not evident in the parent, the pinnae subdividing, making miniature fronds which are superimposed on the main fronds, looking as if two or more were condensed into one.

"LACE" FERN (Asparagus Plumosus Nanus)—This graceful climber has to a great extent taken the place of the once popular Smilax in all fine decorations. Its foliage is finer than that of the most delicate Fern, and it will last for weeks after being cut. Excellent house plants, succeeding under almost any conditions; by pinching back, may be grown as a bush plant.

TULIPS - The Best of the World's Choicest Varieties for Every Lawn and Garden

TULIPS are universal favorites wherever flowers are grown. Their ease of culture, combined with beauty of form and gorgeous coloring, render them the most popular bulbs grown for spring bedding. For winter flowering in the greenhouse and for window garden they are incomparable. Double and Single Tulips when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. And the finest and best in the world are included in the selections on these pages. Our 50 years of flower culture have enabled us to determine, from long experience, the varieties that best combine the qualities of vigor of growth, exquisite beauty, and wealth of bloom. And these are offered you now *at such amazingly low prices* that you can now enjoy their gorgeous coloring and exclusive charm.

Sensational Offer in Darwins —the most popular of all Tulips

Long Stemmed, Late Flowering
As a cut flower, they are of great value. Grow three feet high, bearing immense large flowers, 3 to 4 inches in diameter. The most unique and richest colored of the Tulip family. Their colorings vary from light tints of white, lilac, rose and brown to deep violet, brilliant red, dark brown and black. Very late flowering.

Early Flowering Double Tulips

These tulips have massive flowers of brilliant and varied colors, shades and markings, and being double, the flowers last much longer in bloom than single varieties, and in consequence when singles and doubles are planted in conjunction the "time of the Tulips" is greatly prolonged. Double Tulips are beautifully adapted for beds on the lawn, in the garden, and for mingling in clumps of half a dozen or more around the edge of shrubbery. They are robust growers and exceedingly effective.

COUNT OF LEICESTER—Yellow, flamed with red. Fine bedder. Flowers at the same time as La Candeur and Rex Rubrorum.

DUKE OF YORK—Rich, clear, bright red, white edge.
GLORIA SOLIS—Brownish red; bordered with pure gold.
LA CANDEUR—Pure white. Fine bedder. This variety is beautiful when planted among Rex Rubrorum to form designs etc.; planted four inches apart. We sell an immense quantity of them, being very cheap.

LORE BEACONSFIELD—Deep rose; fine shape.
LUCRETIA—Beautiful light pink; good flower, tall grower.
MURILLO—Beautiful light pink. A great tulip from any stand point.

REX RUBRORUM—Richest scarlet. Beautiful when planted among La Candeur to form designs of any description, as they grow of equal height and bloom at the same time. A rich effect is produced by planting Rex Rubrorum in center of bed surround this with La Candeur, and border with Count of Leicester. All bloom at one time.

SCHOONOORD—Snow white, elegant variety.
